GitHub: abhijithpr08 — LinkedIn: abhijith-pr

SUMMARY

MERN Stack Developer with hands-on experience in frontend and backend development. Skilled in building responsive web applications using React.js, Next.js, Node.js, Express.js, and MongoDB. Experienced in RESTful API development, JWT-based authentication, CRUD operations, and writing clean, scalable code. A collaborative team player with strong problem-solving skills and a passion for modern web technologies.

SKILLS

Frontend: HTML, CSS, Tailwind CSS, Bootstrap, React.js, Next.js
Backend: Node.js, Express.js, RESTful API Development
Databases: MongoDB, PostgreSQL, SQL
State Management: Redux, Redux Toolkit
Programming Languages: JavaScript, TypeScript, C (Basics)
Tools: Git, GitHub, Postman
Other: Responsive Web Design, MVC Architecture, API Integration

WORK EXPERIENCE

Full Stack MERN Developer Intern   Jul 2025 – Present
Synnefo Solutions, Kochi, Kerala

- Developed full stack web applications using MongoDB, Express.js, React.js, and Node.js.
- Designed and implemented RESTful APIs following MVC architecture.
- Integrated frontend applications with backend services using secure API endpoints.
- Performed CRUD operations and optimized MongoDB queries to improve performance.
- Built responsive user interfaces using React.js and Tailwind CSS.

Full Stack MERN Developer Intern   Apr 2024 – May 2024
Right Soft Solutions, Kochi, Kerala

- Developed responsive frontend components using React.js and Bootstrap.
- Implemented backend services and REST APIs using Node.js and Express.js.
- Improved application reliability through database optimization and bug fixes.

PROJECTS

My Portfolio   Portfolio Link
Portfolio

- Built a responsive portfolio using Next.js, TypeScript, Tailwind CSS, and MERN stack concepts.
- Developed reusable components with a clean and structured frontend architecture.
- Showcased projects using React-based dynamic components and GitHub integration.
- Used TypeScript to improve code quality and maintainability.
- Applied full-stack development and performance optimization best practices.
- Implemented client-side routing and modular component structure for better scalability and code organization.

Double Barrel

E-Commerce Web Application

- Developed a full stack MERN e-commerce application using React.js, Redux Toolkit, TypeScript, Node.js, Express.js, and MongoDB.
- Implemented JWT-based authentication and role-based access control.
- Built product management, cart, and order processing workflows.
- Integrated frontend and backend modules using RESTful APIs.
- Collaborated with college teammates to plan features, develop modules, review code, and resolve bugs using Git and GitHub.
- Continuously enhancing features and improving performance.

College Management System

- Built a MERN stack web application for academic and administrative management.
- Implemented secure authentication, RESTful APIs, and MongoDB database integration.
- Designed scalable backend architecture and responsive frontend interfaces.

EDUCATION

Diploma in Information Technology 2022 – 2025
Government Polytechnic College, Purapuzha

Higher Secondary Education 2022
GOVT HSS Muppathadam, Aluva, Kerala

Secondary Education 2021
GOVT HS West Kadungalloor, Aluva, Kerala
